## NATURAL SELECTION

The easiest way to carry off those brights is by cleverly teaming them with classic neutrals. A camel coat stands the test of time, so invest now and mix it with zingy tailored pants and a button-up blouse.

## RANGE ROVER EVOQUE

This is Range Rover's baby off-roader and it's the essential purchase of the year. It combines futuristic looks with family practicality, all wrapped up in a premium package that can be yours for a relatively bargain price. On sale with five doors or, more elegantly, with just three, it's the smallest and most fuel-efficient Range Rover in the world. It will be the coolest car at the school gates – Victoria Beckham has even designed one of the interiors – and, thanks to its impeccable inherited 4x4 technology, it will also take you up to and beyond the farm gate.

**PRICE** From £28,000

**FOR** Desirable and great value

**AGAINST** Its popularity will negate exclusivity

## VW GOLF CABRIOLET

Volkswagen's Golf has been around now for more than 30 years and it's still one of the most sought-after cars. It's a motor for all occasions and the staple set of wheels in an 'it' girl's garage. Available in a variety of body shapes, it's the topless version that'll make you feel sexiest. Plus it's super-smart inside. Also, when the sky becomes your ceiling, the Golf becomes phenomenally functional – how else are you expected to carry the Christmas tree home?

**PRICE** From £21,000

**FOR** Potentially the only car you'll ever need

**AGAINST** Premium price for open-air motoring

## FIAT 500

Perhaps the cutest car in the world, Fiat's 500 may be small but it has a big presence wherever it goes. Fun has been etched into its soul like words in a stick of rock, and the cheerful paint jobs just underline its cheekiness. Capitalising on its urban appeal, it has one of the world's most efficient engines – the TwinAir – which ticks all the boxes for the carbon-footprint-conscious, and Londoners take note: it's exempt from the congestion charge. By contrast, there's also a 500 that's powerful enough to have a fight with the big boys on the road and emerge reasonably unscathed.

**PRICE** From £10,000

**FOR** Economical and a cool city car

**AGAINST** Lacks comfort for longer journeys
